

Bolt-on and thread-on housings.  
Every drill covered in any conditions.

## BOLT-ON HOUSING

Works hard all day, every day.

Incorporates the angled Super Nozzle, designed to help your cutting action by minimising clogging.

Large lid tabs provide more contact surface for less wear and longer life.

## THREAD-ON HOUSING

For complete security in the toughest ground.

Iron Fist    Bolt-on Bit Body    Eagle Claw® SD

Precisely-placed slots optimize signal strength while minimising weaknesses.

Heat-treated, alloy steel for superior strength, abrasion resistance and durability.

Removable, replaceable adapter increases longevity of the housing.

**Bolt patterns to suit all rigs.**

More pipe in the ground every day.

## FASTBACK®

Drill out and ream back off the head at 6" diameter with Fastback® blades and housings.

Fastback cutter blocks cuts like the Tornado reamer.

## PITBULL HOUSING & BLADES

Leave no bit behind.

Reduce torque on your blade for greater peace of mind.

Removable solid dowels strategically placed to take load off of bolts.

Pitbull housings work with your existing blades.
