

HDD Mud School

27-28 September 2022

Blick and M-I Swaco are proud to present our
two day HDD Drilling Fluid School.

This seminar is for **drillers** working in
trenchless, HDD or tunnelling.

This course will help you understand the following:

- Discussion on bentonite and polymer differences, and proper uses
- Proper testing, and reasons why we run mud tests
- Proper mixing and handling
- Product applications for specific drilling conditions
- Fluid systems for different soil conditions
- Borehole calculations and drilling methodology

Presented by **Sam Rowdon** (HDD Project Lead for Asia and South Pacific, **M-I Swaco**). Sam is a qualified civil engineer and qualified industrial and oilfield fluid engineer.

Supported by **Blick** technical experts **Tim Babbage, Jon Speedy & Clay Adams.**

Spaces are limited to 16 people per school

To secure your place contact Clay on **07 849 2366** or email **sales@blick.group**

- **C:** \$1200 + gst per person
\$600 + gst pp for existing Blick customers (\$600 Blick Subsidy).
